

Commercial Inspection Update

Have you scheduled your boat inspection? If not, please call 603-293-2037 Ext #2.

All owners (or his or her designee) requesting to have a commercially registered boat inspected, which is required annually by law, are requested to follow the procedures listed below:

- Prior to the inspection have all required equipment available and present outside of the vessel. Such equipment is as follows, but not limited to:
 - Personal Flotation Devices (PFD's)
 - Type IV (when required)
 - Fire extinguishers
 - Paddles
 - Sound producing devices (if portable)
 - Engine compartment needs to be open on inboards and I/O's for inspection purposes.

- All compartments that require physical inspection should be unlocked and left open for the officer to access without assistance.

- If for some reason you have scheduled an inspection but your boat is not ready, please call as soon as possible to reschedule, but no later than the day before the scheduled inspection date.
